.NET Developer | 5+ years of experience in C#, .NET Core, ASP.NET and SQL Server.

I have solid experience in developing and maintaining scalable web applications using .NET technologies. I focus on writing clean, maintainable code and efficiently solving challenges to deliver practical, client-focused solutions. I am committed to continuous learning and staying up to date with the latest industry practices to enhance my skills to deliver high-quality results.

Professional Experience

Programmer Analyst | Atento
February 2022 - Present

Contributed to the development and maintenance of web applications and enterprise systems, utilizing technologies like C#, .NET Core, Entity Framework, ASP.NET, jQuery for legacy systems, SQL Server for databases, Web APIs, and Microsoft Azure services, while consistently applying agile methodologies.

Played a key role in the creation of **Atento AI Studio**, an artificial intelligence initiative designed to simulate customer service scenarios, enhancing candidate management processes during the selection phase.

Conceptualized and implemented a **Talent Reallocation System**, optimizing post-contract employee management and achieving a 60% improvement in talent retention.

Intern | Atento
February 2020 - December 2021

Supported senior developers on multiple projects, learning and applying .Net Core, ASP.NET and API in web applications.

Key Technologies: C#, .NET Core, ASP.NET, Entity Framework, SQL Server, Azure, Git, Agile.

Education

Bachelor of Information Systems
UNIESP - February 2018 - December 2021
